

Path Align-R™

Climb Ready Package

The Path Align-R is the only equipment exclusively made to align antennas with minimum path loss in the shortest time. The Climb Ready Package is the combination of the most flexible Path Align-R model and popular accessories so you are "climb ready".

The Climb Ready Package, model 2241CR, includes a Path Align-R set with Record-R for GPS data logging, all 4 extended frequency bands, and its standard accessories. Additional accessories include 2 each: case, extra spare battery, and SMA to N connector; and 2 each of 4 different waveguide to coax adaptors.

Model 2241CR includes:
