

PRO-T Series

10 kW Programmable Power Supplies

The PRO-T Series 10 kW programmable power supplies meet the sophisticated control and packaging requirements of high power test and measurement applications. These supplies have SCR preregulation. Optional internal IEEE-488/RS 232 capability for various programming and readback functions with 12-bit resolution and accuracy is available. Other features include outputs for remote voltage and current readings,

remote OVP programming and remote shutdown. The PRO-T Series yields 80% efficiencies at full power with good

regulation (<0.1%) and RMS ripple as low as 20 mV.

Features

- ◆ **Voltage**
8 models from 0-16 to 0-600 VDC and 16 to 625 ADC,
- ◆ **Input**
480 VAC, 50/60 Hz, three phase input (optional inputs available)
- ◆ **SCR Preregulator Topology**
- ◆ **Protection and Safety**
 - Unique circuit prevents load burn-out should remote programming lines open
 - OVP shutdown standard
 - SCR crowbar (Option M5)
- ◆ **Remote Programming**
 - Remote control functions: voltage, current, OVP shutdown, external meter/indicator driver
 - No programming resistors in contact with output, avoids high voltage problems with programming components
 - Optional Internal IEEE-488/RS 232 Interface Card with voltage and current readback and adjustable OVP (Option M9C)
- ◆ **Regulation**
0.1% line and load regulation (max.)
- ◆ **Programming**
Fast programming speed (100 to 150 ms typical)
- ◆ **Rear Panel Controls**
Rear panel connector features: AC control, shutdown, voltage set, OVP set, local/remote current meter, remote voltage meter, OVP indication, thermal indication and remote sense.
- ◆ **Software**
LabVIEW® driver for M9C/M85 can be downloaded at no cost at www.sorensen.com/support/downloads.cfm
- ◆ **CE Mark**
(Option M36)
- ◆ **5 Year Warranty**

PRO-T Series

OUTPUT

Voltage: See table

Current: See table

Constant Voltage Mode

Noise and Ripple: See table

Regulation

Line and Load Combined: 0.1% of the voltage setting or specification in table, whichever is greater

Transient Response: Typically recovers in 40 ms to within 1% of steady-state output voltage for a 50% to 100% or 100% to 50% load change

Stability: 0.1% of maximum voltage over 8 hours after 30 minute warm up time at fixed line, load and temperature

Temperature Coefficient: 0.02%/°C of maximum output voltage

Constant Current Mode

Ripple: See table

Regulation

Line and Load Combined: 0.1% I_o max. of the output current setting or specification in table, whichever is greater

Stability: 0.1% of maximum current over 8 hours after 30 minute warm-up time at fixed line, load and temperature

Temperature Coefficient: 0.04%/°C of maximum output current

INPUT

Voltage and Frequency: 480 VAC \pm 10%, 50-60 Hz, three phase

Voltage Options: See Input Voltage Options

Current: See table

GENERAL

Operating Temperature: 0° to 50°C (derated above 30°C)

Storage Temperature: -45°C to 85°C

Cooling: Forced air, fan cooled

Humidity Range: 0-90% RH, non condensing

Efficiency: 80% at full rated output (typical)

Series Operation: 200 VDC max.; consult Sorensen for series operation of more than 2 units

Parallel Operation: Master/slave operation up to 3 units. Consult factory for details.

Overvoltage Protection: Adjustable 5-110% of rated output. Selectable front panel or remotely programmable

Meter Accuracy: 1% of full scale + 1 count

Voltage Programming: 100 mV per 1% of rated output (0-10 V for 0-100% of rated output)

Current Programming: 100 mV per 1% of rated output. (0-10V for 0-100% of rated output)

Resistive Programming: 100 Ω per 1% of rated output (0-10 k Ω for 0-100% of rated output)

Remote Sense: 5V max. drop in (+) power lead or (-) power lead

Software: LabVIEW® driver for M9C/M85, programs can be downloaded at no cost at www.sorensen.com/support/downloads.cfm

Regulatory Compliance: CE Mark (<300V models only)

Dimensions: 7U or 12.25" (311 mm) H x 19" (482 mm) W x 24" (609 mm) D

Weight: 310 lbs. (141 kg)

Shipping Weight: 380 lbs. (172 kg)

OPTIONS & ACCESSORIES

M5: SCR crowbar

M9C: Internal IEEE-488/RS 232 Interface

M36: CE Mark (<300V models only)

M85: Multichannel slave interface

M86: Parallel cable

Input Voltage Options

Specifying Note: Select AC input voltage option below and add as a part number suffix to specify power supplies (listed as 50-60 Hz, three phase)

T1: 208 VAC

T5: 480 VAC

T2: 380 VAC

T8: 220 VAC

T3: 415 VAC

T10: 230 VAC

T4: 440 VAC

T11: 400 VAC

PRO-T Accessories

Caster Cart Kit: Part No. 1064395-1
