

# SKF Shaft Alignment Tool TKSA 71

Versatility and performance for professional alignment

# TKSA 71 delivers precision and durability

Designed for professional alignment in harsh industrial environments, the TKSA 71 complements SKF's offering with a high-end shaft alignment tool. The instrument is very versatile with ultra-compact measuring units for use in extremely narrow spaces. Its dedicated software applications enable different types of alignments, including horizontal and vertical shafts, spacer shafts and machine trains. Superior alignment performance and long-term industrial durability are achieved with an innovative instrument design that offers high measurement accuracy and excellent protection against dust and water in harsh environments.

# TKSA 71 advantages:

- Easy-to-use Intuitive software applications, guided alignment processes and explanatory videos
- Wide range of applications Comprehensive accessories and dedicated software applications
- Superior alignment performance Up to 10 m measurement distance, disturbance compensation, measurement flexibility, only 40° total rotation, automatic measurement and customised alignments with target values
- Protection against harsh environments Completely sealed measuring units (IP67) to withstand dust and water
- Ultra-compact measuring units Use in extremely narrow spaces
- Robust carrying case Excellent protection, convenient transport and wireless in-case charging

# Complete system for your alignment needs

The TKSA 71 base model includes standard accessories for most alignment tasks. It is supplied in a rugged case that meets most airline requirements for cabin luggage.

The TKSA 71/PRO model includes additional accessories such as sliding brackets, magnetic bases and offset brackets that are useful for more demanding alignment jobs.

This model is supplied in a larger, rugged trolley case.

The TKSA 71D2 and TKSA 71D2/PR0 include an additional display device with a protective cover and pre-installed apps. Both systems are ready for use without internet connection or account setup.

Measuring device: (1) Measuring units (M & S) with standard V-bracket, (2) Wireless charging pods with USB cable, (3) Tape measure Standard accessories: (4) Extension chains, (5) Extension rods, (6) Mounting magnets

Advanced accessories: (7) Sliding brackets, (8) Offset brackets, (9) Additional extension rods, (10) Magnetic bases

# Alignment applications

The TKSA 71 functions quickly and intuitively using six software apps tailored for different alignment jobs. Designed for use without prior training, these simple-to-use apps are available free of charge for both Android and iOS platforms. Common features include comprehensive, automatic reports, export and sharing options, machine library with QR code identification, instructional videos within the app, built-in tolerance guidelines, 3-D live view, disturbance compensation and a fully functional demonstration mode.

# Shaft alignment

Easy and intuitive alignments of horizontal shafts with additional features including automatic measurement, minimal 40° total rotation, 9-12-3 guidance and alignment customisation with target values <sup>1)</sup>.

### Soft foot

Assists technician in verifying that machine is standing evenly on all four feet. The app supports the operator identifying and correcting a soft foot <sup>1)</sup>.

# Vertical shaft alignment

Easy and intuitive alignment of vertical shaft machines with shimming support for different bolt configurations <sup>1)</sup>.

# Spacer shaft alignment

Accommodates special requirements of spacer shafts and facilitates the alignment process <sup>2)</sup>.

#### Machine train shaft alignment

Enables operator to align three connected machines, giving a complete overview of machine train alignment and allowing the operator to select stationary feet <sup>2)</sup>.

#### **Values**

Allows the shaft alignment tool to be used as digital dial gauges; operators can record absolute, zeroed and halved readings to perform customised alignments with manual calculations <sup>2)</sup>.

 $<sup>^{2)}</sup>$  Compatible with: TKSA 71, TKSA 71/PRO, TKSA 71D2, TKSA 71D2/PRO.

# TKSA 71

- Measuring units with wireless charging pods
- Carrying case meets most airlines' carry-on requirements
- Standard accessories

## TKSA 71D

- TKSA 71
- Protected display device for industrial use, TKSA DISPLAY2

# TKSA 71/PRO

- Measuring units with wireless charging pods
- Trolley case with additional storage space
- Standard and advanced accessories

# TKSA 71D2/PR0

- TKSA 71/PRO
- Protected display device for industrial use, TKSA DISPLAY2

The **TKSA 71/ACCESS** is an upgrade kit from TKSA 71 to 71/PRO that can be ordered separately and includes advanced accessories and the large trolley case.

The **TKSA DISPLAY2** is an Android tablet with min 8 in. screen size, protective cover for industrial environments and pre-installed apps. The TKSA DISPLAY2 can also be ordered separately.
