

Transistor Devices

DLP50-150-3000

Pulse and Steady State Electronic Load

- Resistive loading and constant current loading
- Internal square wave modulator for pulse loading
- Operating Voltage: 3 -50V
- Load Current: 0-150A
- Maximum Power: 3000W
- Resistance Ranges: 5A/V; 30A/V
- Constant Ranges: 0-30A; 0-150A
- Pulse Load Range: 0-150A peak
- Program Input: 0-6V @ 1mA
- Frequency Adjust: 500Hz - 5kHz
- Pulse Width: 50% Duty Cycle
- Constant Voltage: 0 -50V
- Overvoltage: 60V max
- Current Limit: 180A max
- Power Limit: 3400W max
