Super Bright Daylight Readable

TRITON FEATURES

The Triton M10-WP control module is equipped with a 10" VividHD™ LCD screen with almost twice the brightness of the leading brand, making it the largest and best daylight readable monitor in the industry. The M10-WP is the pro's choice for any light condition (including direct sunshine), providing stunning HD picture quality, high contrast and 8X digital "pan & zoom" technology revealing details missed by other lateral push cameras. Whether you are working in brutal Canadian winters or hot Arizona summers it's time to...
