XT-512 Locates Blockages Quickly

Combining the portability of the XTpc with the low frequency sonde and passive locating capability found in larger more cumbersome locators, the XT-512 will quickly locate and determine the depth of your sewer/pipe inspection camera or small sonde.

Optimized for locating

- ▶ Blockages in non-metallic pipe
- ▶ Sewer inspection cameras
- ▶ Small sondes

"I don't use a sonde often, but things went perfectly! We taped the sonde to a jetter and tracked it as it was fed down the line (which went under a business that was built over a section of the pipeline after it was laid). Once I pinpointed the sonde with the XT receiver, we further pinpointed it with the Schonstedt magnetic locator they already owned."

—Brent Hutchins, Brad Greer & Associates

- ▶ Operates on 512 Hz Frequency mode
- ▶ Passive detection of 50Hz or 60Hz, and sonde
- ▶ One button depth measurement
- ▶ Digital readout display of signal strength (peak)
- ▶ Audio & Visual Output
- ▶ Battery & Sensitivity Indicators
- ▶ Extends and retracts for easy carrying & storage

Durable & padded case with shoulder sling

Receiver Specifications

Operating Frequency:	512 Hz plus 50/60 Hz passive detection
Battery:	One 9V Battery
Battery Life:	18 Hours (intermittent use)
LCD Display:	3.5" Digit Reflective Signal Strength, Directional Arrows, Battery Status, Volume and Depth on Sonde
Controls:	ON/Volume adjustment, OFF, DEPTH, SONDE, AUTO GAIN, UP gain, DOWN gain, PASSIVE
Dimensions:	Unit extended: 27.7 in (~70 cm), Unit collapsed: 17.5 in (~44 cm)
Weight:	Under 2.5 lbs
Operating Temperature:	-4°F to 140°F (-20°C to 70°C)
Dust & Water Protection:	Rated IP54
