CHAUVIN ARNOUX

Designed for Electrical Energy departments and Maintenance services in industrial and administrative buildings, the Qualistar C.A 8332 and C.A 8334 give an instantaneous image of the main characteristics of the quality of your electrical network. These instruments also provide numerous calculated values and processing functions in compliance with standards in use (EN 50160, IEC 61000-4-15, IEC 61000-4-30, IEC 61000-4-7).

Principal parameters measured:

- TRMS AC+DC voltage: single voltage up to 480 V ; phase-phase voltage up to 600 V.
- TRMS AC, AC+DC current up to 3000 A (according to sensors used).
- Peak voltage and current.
- Frequency from 40 to 70 Hz.
- Active, reactive and apparent power per phase and their aggregate.
- Active, reactive, consumed and produced energy.
- Harmonics for voltage, current, or power up to the 50th order.

Additional functions:

- Graphic data processing.
- Alarms, transients.
- Recording, dating and characteristics of disturbances (swells, dips and interruptions, etc.)
- Data storage.
- Immediate screen printout to printer.
- Screen storage.
- Optical link communication.

Principal values computed:

- Neutral current.
- Crest factors for current and voltage.
- K factors for current (transformer application).
- Power factor, displacement factor and tangent.
- Short-term voltage flicker.
- Voltage and current unbalance.
- Total harmonic distortion.
- Average, min and max values of any computed value.

Display modes

Very structured display modes for 3 distinct stages

"Observation" stage:

Waveform Mode

In this mode, three types of representations are possible: graphic, table, vectoral.
RMS measurements in U and I. PEAK, MIN, MAX, AVG, KF, Pst, CF, phase shift, unbalance measurements

"Diagnosis" stage:

**Harmonics Mode**

Global THD and phase by phase in U, I, V, VA in %, RMS value and harmonics phase shift.
Only the C.A 8334 model offers the harmonics function in VA and the expert mode . This mode provides an analysis of harmonics influence on neutral heating or rotating machines.

W Power / Energy Mode

This mode displays all of the values relative to the power and energy. The Start and Stop keys activate and deactivate the aggregate of energies.
Measurements for:
    W, Var, VA
    Wh, Warh, VAh
    PF, DPF or cos φ and tan φ

OPERATING SOFTWARE

- Configuring instrument via software: setup, recording and alarms modes.
- Recorded and alarm data processing.
- Graphic representation of data in Windows™ environment.
- Data analysis in compliance with EN 50160 standard.
- Screen printout and transient transfers in BMP format.
- 3D representation of harmonics.
- Data to spreadsheet transfer (Excel).

With the around-the-neck holder, making measurements is easy: operating the instrument and reading the displays at the same time.

"Monitoring" stage:

Alarms Mode

The alarms are defined during the instrument's configuration. The alarm mode displays all threshold events which occur during the measurement period.

Automatic time and date recording of the alarm, the maximum corresponding value, and the duration of the event.

Recording Mode

All desired parameters are saved with their visual graphics during a recording.
Note that a bargraph located at the top of the window gives the total recording period, programmable recording period and storing rate.
Transient Mode

The transient mode captures changes of the voltage and current with triggers on thresholds. Representation over 4 periods of the captured event at 256 counts / period, also available with zoom.
Direct function keys:

Configuration

The simplicity of the instrument's set-up is enhanced by the use of graphic representations: type of clamp, connection, color of phases, parameters to record
Printing

Qualistar can be connected directly to a printer for immediate screen printing.
Screen Shot

Press this key to make a copy of the screen. Storing the viewed screen is automatic with date and time recording. Up to 12 screen recordings (C.A 8334).

Help

If needed, the help key explains functions in relation to the viewed screen in simple terms.
